

Workshop on nanostructured graphene

21-24 May 2013, Universiteit Antwerpen

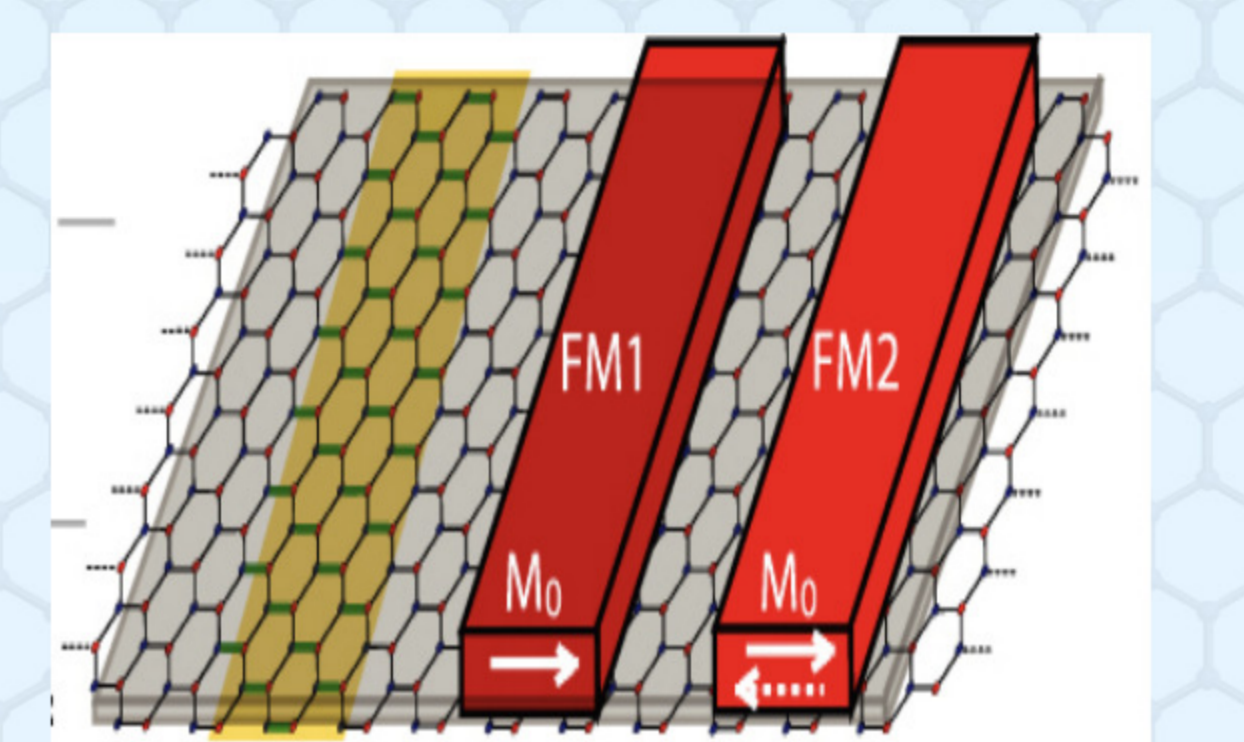

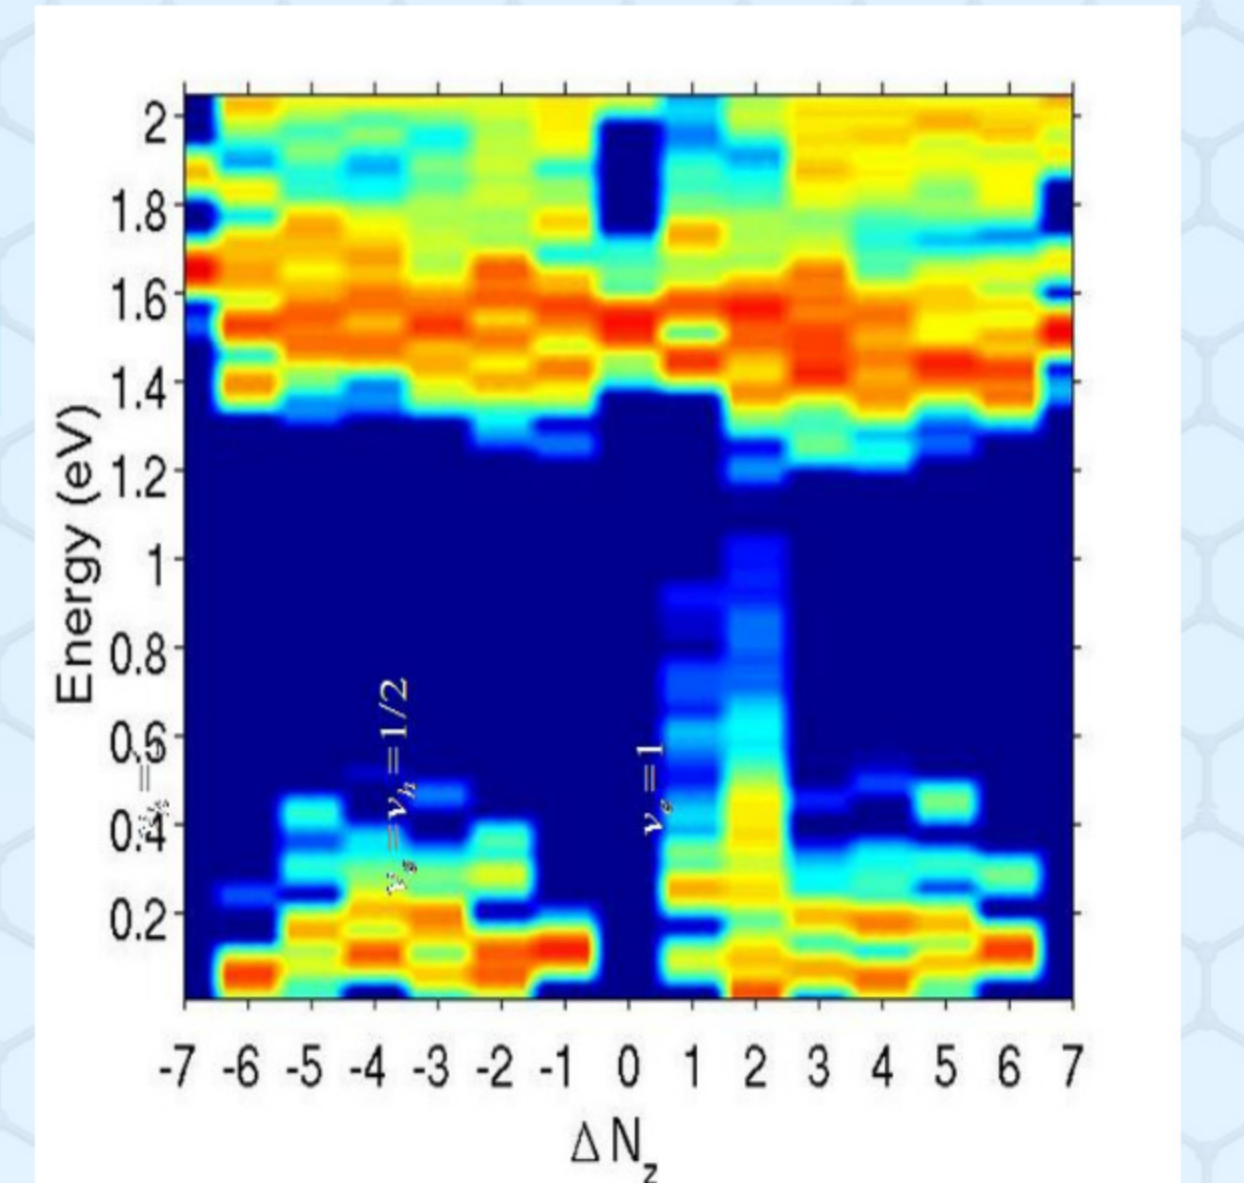

Organizers: François Peeters (Universiteit Antwerpen)
Pawel Hawrylak (NRC Canada)
Lucian Covaci (Universiteit Antwerpen)

Topics: graphene quantum dots and nanoribbons, nanostructured spintronic devices, confined electronic structures, nano-pore graphene, nano-strain engineering, twisted graphene, etc.

Location: Historic center of Antwerp, Belgium

Important dates: abstract submission 1st April 2013
registration deadline 15th April 2013
start of conference 21st May 2013

Registration fee: 150€ for regular participants
