

**RESEARCH CONFERENCES**

**ESF-COST High-Level Research Conference**

**Natural Products Chemistry, Biology and Medicine IV**

**Hotel Villa del Mare, Acquafredda di Maratea, Italy • Italy**

**28 August – 2 September 2011**

**List of Accepted Short Talks**

	<b>Name</b>	<b>Affiliation</b>	<b>Short Talk Title</b>
1	Anthony Burgett	Harvard University, Cambridge, United States	Oxysterol Binding Proteins Are the Cellular Targets of the Antiproliferative Natural Products Cephalostatin 1, OSW-1, Ritterazine B and Schweinfurthin A
2	Gong Chen	The Pennsylvania State University, University Park, United States	Streamlined Syntheses of Natural Products via Catalytic C-H Functionalization
3	Stephen Clark	University of Glasgow, Glasgow, United Kingdom	Approaches to the Synthesis of Polycyclic Natural Products that Contain Medium-Sized Rings
4	Matthew John Fuchter	Imperial College London, London, United Kingdom	Natural Product Inspiration for Epigenetic Inhibition
5	Markus Kalesse	Leibniz University of Hannover, Germany	The Synthesis of Secondary Metabolites from Myxobacteria
6	Martin E. Maier	Universitaet Tuebingen, Tuebingen, Germany	Towards the total synthesis of pladienolide B
7	Nuno Maulide	Max-Planck-Institut für Kohlenforschung, Mülheim an der Ruhr, Germany	Catalytic Asymmetric Synthesis of Cyclobutenes: Towards the Synthesis of Natural Products
8	Evgeny Prusov	Helmholtz Centre for Infection Research, DE	Ripostatin Analogs: The Quest for Stability and Activity
9	Uttam Tambar	University of Texas Southwestern Medical Center, Dallas, TX, United States	Total Synthesis of (±)-Trigonoliimine C via Oxidative Rearrangement of a Tryptamine Heterodimer
10	Erik Van der Eycken	Katholieke Universiteit Leuven, Heverlee, Belgium	Microwaves in the Synthesis of Medium-Sized Ring-Containing Natural Products and Analogues
11	Jiong Yang	Texas A&M University, College Station, United States	Toward the total synthesis of norzoanthamine
